SUMMARY

An affable CS student aspiring to become a successful engineer and work on app development projects.

WORK EXPERIENCE

Self Employment   Jan 2018 - present

Helped clients in making professional presentations as well as CVs and other document-related projects.

Infomedia   March 2021 - April 2021

Pc and laptop advisor

PROJECTS

Windpower model

[2018] Grade 10 (2 semesters) I made a model in a science exhibition to demonstrate the use of wind power and engine-generated electricity to solve electricity problems. (Electricity shortage is a big problem in my home country) I was recognized by the special guests of my school and praised by my classmates, teachers and the principal.
